**Fair Trading (Australian Consumer Law) Act 1992**

Undertaking to the Commissioner for Fair Trading given for the purposes of section 218 of the Australian Consumer Law (ACT)

**UNDERTAKING TO THE COMMISSIONER FOR FAIR TRADING**

**BY**

**BLUE KOMBI PTY LIMITED - ACN 109198049**

**PERSON GIVING UNDERTAKING**

- 1) This undertaking is given to the Commissioner for Fair Trading by Blue Kombi Pty Limited (Blue Kombi) ACN 109198049, ABN 27109198049 trading as Harry's Autocare located at 9 Oatley Court Belconnen, ACT for the purpose of section 218 of the Australian Consumer Law (ACT) **(the ACL)**.

**BACKGROUND**

- 2) Blue Kombi is a licensed motor vehicle repairer, license number 1950054, and it is also an Approved Premises (AP).
- 3) AP's are the premises at which authorised examiners may perform vehicle inspections for registration purposes. Those premises are approved under Division 6.3.3 of the **Road Transport (Vehicle Registration) Regulation 2000** (the Regulation).
- 4) Blue Kombi employ qualified mechanics that are also authorised examiners appointed under Division 6.3.2 of the Regulation to perform vehicle inspections for registration purposes in the ACT **(authorised examiners)**.
- 5) If an authorised examiner inspects or tests a vehicle, the authorised examiner must issue a certificate of inspection for the vehicle, certifying either that the vehicle, its parts and equipment comply with the applicable vehicle standards or that the vehicle, its parts or equipment, do not comply and stating the ways in which it does not comply **(certificates of inspection)**.
- 6) The applicable vehicle standards are set out in Schedule 1 of the Regulation. Specifically, Division 1.9.2, section 1.132 of the Schedule sets out requirements for the performance of braking systems. The prescribed measuring device (in this instance) and requirements are contained in Schedule 2, Part 2.1.3 of the Regulation.

- 7) On 4 June 2014 Office of Regulatory Services (ORS) audit officers conducted a site visit at Harry's Autocare, 9 Oatley Crt. Belconnen. A number of brake test slips were examined. The data and graphical configuration on the test slips indicate that the readings were obtained by the machine being used contrary to the manufacturer's instructions. There are a number of established indicators that are used to determine the validity of a brake test and, upon analysis, it is apparent that these indicators were not present for these tests.
- 8) During the 2 month period up to 4 June 2014, a total of 145 false brake tests were conducted at Harry's Autocare. These inspections were carried out by Authorised Examiners employed by Blue Kombi and resulted in the production of falsified brake test readings that purportedly indicate that the brakes have passed inspection.
- 9) When ORS raised these concerns with Blue Kombi it acknowledged it had engaged in a practice that allegedly contravenes section 29 (1) (b) of the ACL by representing to consumers that their brakes were tested and deemed compliant for ACT vehicle registration purposes, when this in fact was false.
- 10) To address the Commissioner for Fair Trading's concerns, Blue Kombi has offered the Commissioner for Fair Trading this undertaking in accordance with section 218 of the ACL.
